Dear Student

**Invitation to participate in feedback for written assignments on language Open Units**

I have run a pilot study exploring the use of a tool in providing feedback on language Open Units and I am writing to invite you to participate in feedback. This study investigates the use of audio-visual feedback on written assignments.

This feedback complements the normal written comments and/or annotations that you have received on each section of your written project. A link to the recording was embedded in your written project feedback.

You have received feedback in this format. Therefore, I would like to ask you to complete the following questionnaire centred around the following key questions:

1. Did the feedback help you to correct your work and understand your mistakes? (Explain how)

2. (a) One way you think it was useful
   (b) One way you think it may be less useful

3. Did the use of the target language (Spanish) for providing feedback help you? (Explain how)

4. Can audio-visual feedback be useful in your main subject? (Explain why)

I would also like your permission to use a section of your written project, which would be anonymised, as an example of the tool in use.

Your participation is very much appreciated since it will help me to investigate in more depth the feedback you received.

With best wishes,
